TUESDAY EVENING, SEPT. 27

TOBACCO AND BOYS—The evils of tobacco are intensified a hundred fold upon the young. Here it is unqualifiedly and uniformly injurious; it attacks the growth, poisons the heart, weakens the sexual organs, impairs the mental powers and cripples the individual in every way. Not that it does all this to every youth, but it may be safely asserted that no boy of twelve or fourteen years of age has the practice of smoking without becoming physically or mentally injured by the time he is twenty one. We refer to this with special emphasis, because the practice among boys of smoking—and especially of smoking cigars—is now very prevalent. The most prominent cause of the rejection of candidates for citizenship in one city, says Dr. Magruder, is irritable heart, caused to most cases, primarily, by tobacco. It is the duty of our public school instructors to make the facts in regard to tobacco known and impressively felt by their scholars, and we hope that this field of sanitary mission work will be so fully occupied. Sewer gas is bad enough, but a boy had better learn his lesson over a man trap than get into the habit of smoking cigars.—*Medical Record*
